

## NEIGHBOURHOOD PROFILE – GRANDVIEW-WOODLAND

Grandview-Woodland stretches from the Burrard Inlet to Broadway, and is built on a rise with “grand views” of Downtown to the West and across the water to the North. This hip, culturally diverse neighbourhood encompasses the iconic Commercial Drive area where locally-owned boutiques, independent cafes and eateries, organic food markets, and eclectic entertainment venues offer patrons a truly unique experience.

This neighbourhood is well connected by public transportation, including two SkyTrain lines. Homes in Grandview-Woodland consist of a mix of low-rise apartments, duplexes, and single-family dwellings. Many residents in this area have opted to renovate existing properties rather than replace them. As a result, colourful heritage homes and charming cottages characterize this vibrant community.
