Sit-Stand Platforms/Risers

Height adjustable desks are the preferred option. Platforms/risers are less expensive than desks but there are trade-offs with the placement of the monitor, keyboard and paperwork.

Below are examples of platforms and the trade-offs that you need to consider prior to purchasing. We offer regular Intro to Sit-Stand Desks workshops where we provide more details on what to consider before purchasing a sit-stand desk or platform/riser.

Prices subject to change and do not include installation. Prices are provided as a ballpark estimate; contact vendor(s) for an updated quote.

| **ErgoTron TL**      | • No installation  
|                      | • Monitors can be positioned freely on platform or monitor arms can be purchased separately  
|                      | • Keyboard does not drop below the desk; at it’s lowest, it is positioned approximately 0.75” above the desk which may be too high, particularly for those who normally use a keyboard tray  
|                      | • At it’s top height, they keyboard tray can be raised 15.75” above the desk  
|                      | • Monitor platform, at it’s lowest, sits 5” above the desk, this may be too high for many users, particularly for those wearing bifocals  
|                      | • At it’s top height, the platform can be raised to 20” above the desk  
|                      | • Weight Capacity: 40lbs  
|                      | • Fits on 24” deep desks  
|                      | • Dimensions: 37.3” X 24”  
|                      | • 5 year warranty  
|                      | • [Dimensional Illustration](#)  
| **33-406-085:** $498 |       |
| Available from: Staples eway [Kathleen.Hatami@Staples.com](mailto:Kathleen.Hatami@Staples.com) |       |
| **Humanscale Quickstand** | • Customizable: platform can clamp on the front or back of desk or can be placed flat on the desk  
| | • Cable management can be ordered to hide cords  
| | • Single or Dual Monitor option  
| | • Platform is counter balanced: tension needs to be set for specific monitor but once set the platform can be raised/lowered easily  
| | • Keyboard tray does not drop down below the desk; at it’s lowest, it is approximately 1.25” above the desk; at it’s top height is sits 18” above the desk  
| | • Monitor height can be adjusted independently of the keyboard platform  
| | • Fits on 24” deep desks  
| | • Dimensions: 28”WX11 to 17”D  
| | • 5 year warranty
